ETHzürich

Multiple axon tracking
for biohybrid brain computer interfaces
from directional living neural networks

A thesis submitted for the degree of

Joint M.Sc. in Neural Systems and Computation UZH ETH

by Simon Steffens

Swiss Federal Institute of Technology Zurich, ETHZ
Dept. of Information Technology and Electrical Engineering, D-ITET
Laboratory of Biosensors and Bioelectronics, LBB

Examinor   Prof. Mehmet Fatih Yanik
First External Examinor   Prof. Janos Vörös
Second External Examinor   Tobias Ruff, Ph.D.

31. of December 2021
